

HEBRON "DRY"

This is Decision Rendered by Judge Irvine.

CASE IS TO BE CARRIED UP.

Probate Court Renders Decision in Local Option Contest from Village of Hebron.

The matter of the recent local option election held at Hebron which has been heard in the probate court, Judge Irvine, Saturday noon, handed down his decision holding that the judges of elections at Hebron had acted correctly in rejecting six ballots which had not been counted at the election and that of the five voters whose right to vote were disputed. Edgar Evans was entitled to vote and Frank Henry, W. L. Cunningham and that Joseph Housness and Jesse Trace were not entitled to vote.

The court held that the result of the election was that 79 votes were cast in favor of prohibition, and 78 votes were cast against prohibition, and that the village was voted dry.

It is understood that the defendants have given notice of their intention of filing a petition in error and have already asked that the bond for the costs in the case be fixed.

SOLUTION

Of International Trouble at San Domingo Suggested by Dawson.

Washington, March 25.—The state department this morning received a long cablegram from Minister Dawson, suggesting the plan for a temporary solution of the international difficulties at Santo Domingo. It is that an American citizen be appointed as United States commissioner to collect customs receipts of the country in accordance with the terms of the treaty which the senate recently failed to pass. He says the officials of the Dominican government agree to the plan and desire its adoption. Technically the commissioner would be an officer of the Dominican government but would have the moral backing of the United States. Dawson asks permission to name such commissioner.

JUST A JOKE

They Locked the Couple in, and the Girl May Die from Semi-Asphyxiation.

Coshocton, O., March 25.—Miss Martha Tait lingers near death as the result of a practical joke played by her friends. She dwells at Mrs. Mary Mawhom's boarding house and a young man from her home town, Richmond, Ind., came to call on her. She entertained him, and her fellow boarders, to play a joke, tied the door of the room and barricaded it. The twin made frantic efforts to get out and knocked down the stovepipe of a small gas stove. They were kept there till morning and then released. Miss Tait retired to her bed yesterday and when she awakened at noon had barely strength to reach the window when she fell against the sash, breaking it and attracting assistance. Her condition from semi-asphyxiation is still dangerous.

WITH MACHINERY

Sheep Are to be Shorn in Union County—New Process to be Tried Near Marysville.

Marysville, O., March 25.—On the farm of George M. Wilbur for the first time in the history of Ohio sheep will be shorn by machinery. The machine consists of two pairs of shears propelled by a gasoline engine. Two men operate it. It is claimed that about one pound more of wool from each sheep can be obtained by shearing with the machine than by hand. Mr. Wilbur is one of the largest wool growers in the state.

The enforced Sunday rest which has been introduced into Spain is causing much dissatisfaction in all commercial and industrial centers. It is considered likely that the cortes will repeal the law.

TO THE WAIST

They Stripped and Stabbed at Each Other Until Both Were Wounded Unto Death.

Stuebenville, O., March 25.—A knife duel to the death was fought by John Dobinsky and John Slato, two Polish miners, at Plum Run, a mining town in Smithfield township, yesterday. The men, armed with liquor, agreed to settle a grievance with knives.

Stripping to the waist in a large room they began the battle. Each thrust of the knife that caused the blood to spurt was cheered by the loungers who looked on. The men grew weaker and weaker from the loss of blood and fell. On the floor the men clinched and sank their knives into each other's bodies as long as strength lasted.

John Dobinsky died almost as soon as the two, unable longer to strike a blow, were stretched helpless on the floor. John Slato lived till last night. Nearly 30 gashes appeared on each of the bodies. Those witnessing the duel made no report to the police.

DUN'S REVIEW

Summary of Business Conditions Throughout the Country.

New York, March 25.—Dun & Co.'s weekly review of trade today says: Spring trade responds to seasonable weather and shipments of merchandise have increased so rapidly that railway facilities are severely taxed. At many points there is complaint of car and motive power shortage and navigation on lakes and rivers at the north has not opened as promptly as business demands. The customary damage from floods has rendered many mills idle and several minor events added to the number of unemployed, but these temporary adverse features are more than offset by the resumption of outdoor work, especially in building operations and on the farms.

Buyers are arriving in large numbers at primary markets, warm weather accelerating preparations for Easter trade. Manufacturing activity continues, the best news of the week coming from the iron and steel industry, where new records are constantly established. Textile plants are also increasingly busy, but there is frequent complaint of small profits because of high costs of production, particularly as to raw material and labor.

Holders and makers of iron and steel products appear to have secured control of the situation. It is no longer considered desirable to delay the placing of contracts in expectation of better terms. Although boom conditions have been avoided thus far and comparatively steady quotations prevail, it is possible that in some departments of the industry urgent orders may soon go abroad. Two special features have developed during the past week, a maximum movement of iron and ore was announced and the largest single contract on record for steel billets was placed. In addition the recent record breaking output of coke was further increased.

Strength is seen in the hide market, especially for native steers of mid-winter salting, and sole leather branded hides are in limited supply. Leather is quiet, tanners holding for better prices than most manufacturers of footwear are willing to pay. Salesmen of New England footwear manufacturers who are in the west have secured liberal initial fall orders, business on the whole comparing favorably with any preceding week this year.

SAVINGS BANK

Run is Started on Sound Institution at Cincinnati by False Reports.

Cincinnati, O., March 25.—The run which started on the Union Savings Bank and Trust company, one of the strongest financial concerns in the city, continued today. Many people crowded the bank, withdrawing their deposits. Demands were all promptly met. A squad of police promptly ordered. Offers of money in large sums are coming to the officers of the company from other banks all over the country, but none have been accepted. The officers made this statement today:

"We know who started the run by malicious rumors deliberately disseminated. When the run is over we will further investigate. We know letters and postal cards were sent out advising people to withdraw their deposits. We will ask the United States authorities to take action under the postal laws."

AGAIN IN COURT

Mrs. Chadwick Makes Some Statements Anent Her Money Troubles—The Mysteries.

Cleveland, March 25.—In the bankruptcy court here Mrs. Cassie L. Chadwick detailed some of her financial transactions in the course of an examination by Attorney Louis J. Grossman, acting for Trustee Nathan Loeser. Mrs. Chadwick said that she was not able to give as many details of these transactions as she would like to because of the absence of papers which were held in a number of cities. She had sent for the papers and expected to have them when the hearing is continued next Thursday.

Mrs. Chadwick testified that her total indebtedness would not exceed \$750,000. Of this sum borrowed from various persons, she had received only \$517,000, leaving \$233,000 for commissions to the money lenders. She said she owed certain banks in Cleveland \$200,000. The names of these institutions she was willing to give to Mr. Loeser, trustee for the creditors, privately.

Mrs. Chadwick walked from the county jail to the bankruptcy court, a distance of about one block. This is the first time Mrs. Chadwick has appeared outdoors except in a carriage since her arrest. She looked well and appeared cheerful. She expressed her willingness to tell all that she could of her financial affairs. Some of the questions that were put to her were not answered because she did not care to give a reply form memory.

The examination disclosed additional assets of \$200,000. Of this amount \$58,000 is due from Charles H. Stewart of Cleveland and \$150,000 worth of jewelry held by Wolfers Bros. of Brussels, Belgium. Mrs. Chadwick asserted that there are others assets consisting of jewelry and valuable articles held by other persons for her.

The examination was conducted in the presence of Mrs. Chadwick's four attorneys, who at times interposed an objection to the questions of Mr. Grossman and with whom Mrs. Chadwick frequently consulted before she replied to some of the attorney's questions. Mr. Grossman's opening question was that he believed Mrs. Chadwick owed debts to the extent of \$2,000,000 and of that sum but \$100,000 in assets had been located. He asked Mrs. Chadwick to assist the trustee for the creditors in locating all that could be found of her property. This Mrs. Chadwick said she was willing to do, but said that important papers she had sent for would not be in her possession until next week. She said the papers were scattered around in Canton, Pittsburg, New York and other places. She said the effect of the papers would be to show where hundreds of thousands of dollars worth of property was and would also make known what sums of money she had borrowed. She denied that her indebtedness would amount to \$2,000,000 or any sum near it. She said the sum of \$750,000 which she admits she owed would include the bonuses paid for the loans.

SECRETARY HAY

Will Not Resume His Place in Roosevelt Cabinet

ILL HEALTH IS THE CAUSE

President Is Now Looking Around for a Good Man to Become the Secretary of State.

(Bulletin)
Washington, March 25.—It may be stated by the best authority that Secretary Hay will not resume his place in the cabinet upon his return from his present vacation. His career as

premier of the McKinley-Roosevelt administrations has practically come to a close. Ill health is the sole cause. It was just previous to his departure from Washington that Mr. Hay acquainted the President with his desire to lay aside the state portfolio. The President was unable to induce Secretary Hay to reconsider his course and regretfully stated that if he were still of the same mind upon his return he would accept his resignation. The President is now canvassing the names of several eminent men with a view of asking one to become Hay's successor.

CASTRO

Up to Present Time Has Checkmated Uncle Sam and Other Powers.

Washington, March 25.—A prominent member of the government admits today, without reservation, that up to the present, President Castro of Venezuela, has checkmated Uncle Sam and several European powers and forced this country to ponder deeply before making another move. By acquiescence in award of The Hague tribunal in 1904, he has rendered three principal ports of the country practically safe from attack by foreign nations and then he diverted trade to the remaining ports which he now proposed to cover in a similar manner by agreement with Great Britain, Germany and France. This places an impenetrable wall about Venezuela. In short, Castro has in reality two-thirds of the armed forces of the world guaranteeing his comfort and safety. The present period of seeming inaction on the part of the government here will be employed in a thorough investigation on the subject from an international aspect and laying plans for future conduct.

Washington, March 25.—Secretary Taft had a conference with the President at noon today. Later he stated no developments had occurred in the Venezuelan situation.

Washington, March 25.—Minister Bowen's telegram to the state department informing the administration that President Castro of Venezuela had refused explicitly to submit to arbitration the pending issues between the United States and Venezuela and declaring that the asphalt cases must be adjudicated by the Venezuelan courts formed the principal topic of discussion at the meeting of the cabinet. That the situation is not regarded as acute at this time was indicated clearly by the determination of the president and his advisers to pay no present tribute to President Castro's refusal to arbitrate the existing differences. It is the indicated intention of the president and Secretary Taft, who, in the absence of Secretary Hay, is being relied upon for advice in matters pertaining to foreign affairs, simply to await further developments in Venezuela. It is not believed that the situation now is of such a character as to warrant alarm. Indeed, the president is proceeding with the arrangements for his southwestern trip without reference to the Venezuelan embroglio.

New York, March 25.—The Tribune today says: "In answer to a request for a statement on the present Venezuelan situation, the Tribune last night received the following cable dispatch from President Castro:

"Received your cable. I do not believe there will be any trouble, and if there should be any, Venezuela would win, because she never drifts away from right, reason and justice, which are the strength of weak nations."

"CIPRIANO CASTRO."

ACTRESS BADLY BURNED

Her Screams Alarm Audience, but Panic Is Averted.

Syracuse, March 25.—Miss Ethel Tilton, prima donna of a light opera company playing here, was badly burned in her dressing room at the Bastable theater and removed to a hospital. Miss Tilton was making a change of costume when a flimsy picture hat which she wore caught fire from a gas jet. In attempting to tear the blazing hat from her head her dress also caught and the upper part of her body was enveloped in flames. Screaming with pain and fright she rushed from the dressing room and down a flight of stairs onto the stage, which was being set for the second act.

Manager Hurlst rushed to her assistance, pulled off her coat and, wrapping it about her, put the fire out. Although the curtain was lowered at the time, the audience heard the woman's screams and became uneasy. The orchestra struck up and the ushers soon quieted the people and none left the house, although two women fainted.

Miss Tilton joined the company three weeks ago in Toledo. Her injuries are not dangerous.

They have a queer way of holding auctions in Japan, and those affairs are entirely without noise. The auctioneer puts up the object to be sold and asks for bids on it. Each bidder then writes his highest price on paper and deposits it in a box. The box is opened and the object given to the one who has offered the most for it.

END OF WAR

May be Accomplished Fact in a Few Days.

STARTLING FIGURES GIVEN

Fully 400,000 of Czar's Great Army Killed, Wounded or Captured—Strong Peace Talk Today.

(Bulletin.)

London, March 25.—From what are considered to be sources of undoubted authenticity comes the statement today that the end of the Russian-Japanese war will be an accomplished fact before the expiration of a fortnight. Dispatches from St. Petersburg today lend an air of probability to the rumors that Russia has decided to initiate peace negotiations that are expected to reach a quick conclusion to the war.

London, March 25.—The fact of peace continues and greater interest is manifested in the many rumors. More emphatic assertions are made now than at any time since the war began that the Czar desires to have hostilities cease. It is believed that the matter has become practically a question of terms. If Japan will forego any indemnity it is believed Russia will consent to immediate termination of the war. On the other hand it is felt that if the Japanese insist on an indemnity the Czar will continue the war. There are no signs that Japan is willing to abandon her pecuniary demand.

FIGURES ARE STARTLING.

St. Petersburg, March 25.—Official figures as to the number of troops sent to Manchuria and supplies furnished the army are given in the army organ today. Criticism is heaped upon the war office for unpreparedness and incapacity in directing the war. The statement shows that up to March 12, the war office had sent out 13,087 officers, 761,467 men, 146,321 horses, 1,521 tons and 316,321 tons of ammunition and supplies. No official estimate of the Russian losses is given, but the press and other sources indicate that fully 400,000 of these men have been killed, wounded or captured.

FIGHTING IS IN PROGRESS.

St. Petersburg, March 25.—Reports from the front today indicate further fighting is in progress between the far Eastern armies although no idea is given of the extent of the conflict. A dispatch from General Linavitch says that the Japanese are cannonading the Russians' front from the neighborhood of Pulinna. Another dispatch from the commander-in-chief says the Japanese after driving in the Russian outposts at Shoomentse made a vigorous attack but were repulsed.

JAPS IN HOT PURSUIT.

St. Petersburg, March 25.—The situation in Manchuria is once more threatening and it is probable that news of another battle will be received within a few days. It is reported that the czar has directed General Linavitch to make a stand at the Sungari river and to fight there to the last. As the Japanese are known to be close on the heels of the Russians this probably means that the two armies will soon be joined in battle.

The position along the Sungari river offers excellent advantages for making a stand. The natural defenses facing the Russians are an advantage. The fact that the river has few fords will hamper Japanese banking movements.

Interior Minister Boulgair's promise to the Moscow Douma representatives, headed by Prince Galitzin, that representatives of the people will be allowed to participate in the deliberations of the commission which is to frame the new governmental assembly contemplated by the imperial rescript of March 3, will be received with satisfaction by moderate Liberals, and, taken in connection with the announced concessions to Finland and Poland, indicates the government's intention to give heed to moderate demands. It is noticeable that M. Boulgair has left the manner of the selection of the popular representatives on the commission in the air, giving the government the opportunity to yield the point of election instead of selection if the pressure should be too strong.

Red Men.

At the regular meeting of Minerva Tribe No. 52 Improved Order of Red Men held on the 24th sleep, nothing but the regular routine business was transacted. Several brothers are unable to follow the hunt, but all are improving. After the regular council fire was quenched a special meeting of the Haymakers council was held, and preparations were made to confer the Haymakers' degree on the night of April 18. A committee of five was appointed on entertainment and a committee of five appointed on banquet. A big delegation of the Zanesville Haymakers is expected to be present on that night and all Haymakers are requested to turn out on that night in full uniform to go in the parade. A special meeting will be held on next Friday night to make further arrangements and all Haymakers are requested to be present.

All members of the Improved Order of Red Men who have not taken the Haymakers' degree should hand in their names at once to the Collector of Stacks and get ready to work in the hay field as this is the last time the degree will be conferred until the cold weather sets in and the degree conferred this time will be the hottest time in the history of the Haymakers.

Modern Woodmen.

Cedar Camp No. 4727, Modern Woodmen of America met in regular session Wednesday evening with 105 members present. Six new members were elected. The Escort found Prof. J. D. Simkins and Truant Officer David J. Jones in the ante room, and they were instructed in the mysteries of Woodcraft and adopted as social members. Neighbors J. P. Lamb, Dr. Shirer and George Nichols were reported sick. The committee appointed to act with the Royal Neighbors, reported that in the near future an open meeting would be held, but the exact date and place would be announced later. On Wednesday evening, April 5, the teams from Ohio camp and Camp Chase of Columbus, will put on the floor work in Cedar camp's hall, and the team from Ohio camp will put on the beneficial degree and the Camp Chase team will put on the Fraternal degree, and Cedar camp's team will put on a fancy drill.

E. C. Richardson, clerk of Cedar camp, received a letter from Head Clerk C. W. Hawes stating that the state banner had been awarded to Cedar camp for the year 1905, having the largest membership in good standing on December 31, 1904, than any other camp in the state of Ohio. The team of Cedar camp will go to Croton, O. in the near future to institute a new camp of Modern Woodmen. The new roster of the membership of Cedar camp is now in the hands of the printer and will be out in a short time and every Neighbor should get one as they contain not only the list of members but other valuable information. A good turn out of the membership is desired on the night of April 5, and show the Columbus neighbors a good time.

NEWARK LOST

But Score at Coshocton Was 23 to 22. Game Was Exciting All the Way Through.

The Y. M. C. A. basketball five returned from Coshocton Friday night with long faces, being forced to taste the bitter dregs of defeat. The score was close, however, 22 to 23. The boys say the teams played five minutes too long, which allowed Coshocton to score the point which gave them the game. The game was close and exciting from start. The line-up:

WON'T PLAY IN FAST COMPANY. Zanesville, O., March 25—Doc Reising who pitched for Brooklyn last year and who now lives at Caldwell, O., it is said, will not join Brooklyn this year, but remain in the independent circuit. He is interested in the New Southeastern Ohio league and will pitch for Caldwell. Reising has signified his intention of staying out of the professional game.

ANOTHER INDEPENDENT LEAGUE. Caldwell, O., March 25—The baseball teams of Caldwell, McConnellsville and Beverly, met here last night and organized the Southeastern Ohio league by electing U. H. GIVE NATURE A CHANCE

BY USING

NEWBRO'S HERPICIDE

The ORIGINAL remedy that "kills the dandruff germ."

It destroys the tiny vegetable growth in the sebaceous glands of the scalp, after which the hair will grow as nature intended. Don't wait until it is too late, for chronic baldness is incurable. The microbe of dandruff and baldness makes the hair dull, brittle and lustreless. It fills the hair with dandruff and causes itching of the scalp. Later, it chokes the very life out of the hair and causes it to fall. Save it with NEWBRO'S HERPICIDE. Extraordinary results follow its use.

READ THESE THREE LETTERS.

After typhoid fever my physician recommended Herpicide for my hair, which was falling. I used it a number of months and my hair is longer now than ever before, measuring more than five feet in length. (Signed) MARIE A. MCINTYRE.

St. Paul, Minn.
The top of my head was completely bald and fifty dollars worth of "Hair Growers" failed to benefit me. My photograph shows the result of a thorough treatment with your dandruff germ destroyer. (Signed) CLARENCE HAMILTON.

Atlanta, Ga., Police Dept.
At an early age my hair began to fall. I was almost bald when I was induced to try your valued remedy and now I have a fine head of hair. (Signed) C. J. BUDLONG.

Washington, R. I.
Herpicide contains no grease, it will not stain or dye. Stops itching of the scalp instantly.

The Medicine That Cures.

RENO, ORE., May 11, 1928.

Wine of Cardui absolutely does cure sick women. I consider it the most valuable medicine, and it is the cheapest cure any sick woman can use, as it takes as a rule, only a few bottles, to effect a complete and lasting cure. I especially recommend it for uterine or ovarian troubles, inflammation and ulceration, painful, profuse or scanty menstruation and it is a most valuable adjunct to use during the gestative period, insuring easy childbirth and speedy recovery.

It should have a place in every home as it is a true friend to wife, mother and maiden and I most heartily recommend it.

Dr. E. Buchanan
WRITER AND LECTURER.

Dr. Mrs. Buchanan is an authority on the science of medicine and certainly appreciates the great work physicians are doing for the relief of sufferers. But this does not deter her from expressing her views in praise of Wine of Cardui.

Mrs. Buchanan's high intelligence and long and successful experience render her advice of great value. Wine of Cardui regulates menstruation, cures bearing-down pains and relieves suffering women of the pain and misery to which their sex is heir. You have the word of Dr. Buchanan and thousands of other eminent women that Wine of Cardui will completely cure you.

All druggists sell \$1.00 bottles Wine of Cardui.

THREW AWAY HIS CRUTCHES

A Bowling Green Motorman Who Found a Cure After the Doctors Had Failed.

Jacob H. Parr, a motorman on the T. B. G. & S. electric railroad, has had a rather notable experience recently. Mr. Parr, who resides at the Hotel Brown, Bowling Green, O., was afflicted with rheumatism in a terrible manner, and for several months was quite helpless. He went to Mt. Clemens for treatment, but received no benefit. Then he tried a celebrated specialist, who only made him worse. He could scarcely get about with the aid of a pair of crutches.

Mr. Parr says of his further experience: "I could not walk a block even with crutches, when I got a bottle of Jamaica Rheumatic Cure. It began to help me from the very first,

STATE POLITICS WARMING UP

EXCELLENT ADVICE TO OHIO
DEMOCRATS FROM WILLIAM
J. BRYAN.

Fight in Republican Ranks Against
Herrick Makes Democratic
Chances Good.

Columbus, O., March 25.—In the current issue of the Commonwealth, its editor, William Jennings Bryan, gives some excellent advice to the Democracy of Ohio and the nation. He says that party success can be secured if the Democrats will agree to attend every primary election from now until the next presidential contest, thus indicating a healthy interest in the organization and its principles, and placing themselves in a position to earn support and work for the nominees of the party.

The advice of Mr. Bryan will be followed by the Democrats of Ohio, it appears to go for anything. The committee of fourteen, of which Hon. H. C. Garber is chairman, and Colonel W. A. Taylor is secretary, is doing yeoman service along the line of organization and reports coming in from the various counties indicate that the party will make a supreme effort to win at the polls this fall. The work being accomplished is of the most valuable character and nothing is being taken for granted. It is believed that under the plan now in vogue the Ohio Democracy will be in excellent fighting trim in the coming fall contest.

Ohio Democrats can well make up their minds that they will have Governor Herrick to beat in November. All the courage has oozed out of the finger-tips of the Foraker crowd and neither Hon. Warren G. Harding nor any other man will have the assurance to make a contest for the nomination. Senator Foraker wants the backing of Ohio at the coming Republican national convention, and he does not propose beginning his battle for the Ohio delegation by antagonizing the old Hanna machine.

There are statisticians who believe that with a strong candidate, a conservative platform and an aggressive campaign the Democrats have an excellent chance to win. In spite of the literary work of the Herrick and Dick machine there is still great opposition to the governor's re-nomination. This may not appear openly at the convention, but in thousands of communities it will be manifested at the polls. The vote in Ohio is always small at the election immediately following a presidential contest, but the fact that mu-

nicipal elections are to take place that fall is counted on as an asset in an election. The members of the legislature are to be chosen in November, but there is no United States senator to elect, party lines will not be so tightly drawn on that proposition. This will add to the Democratic chances in Ohio.

At this time it would be impossible to predict what is likely to happen among Ohio Democrats, but the fact remains that with a proper husbanding of their chances they have an excellent opportunity to win this fall. Ohio is a Republican state as a general proposition, but with four years more of Roosevelt assured, no senator to elect and an unpopular nomination with enemies on every side, there is no predicting what might happen. The election of Bishop in 1877, of Hoadley in 1883, and Campbell in 1889, argues that the Democrats can win in Ohio with the proper candidate and a conservative platform. It will be the duty of the state convention to furnish both this summer.

With the almost absolute certainty that the opposition to the re-nomination of Governor Herrick will be unable to get a candidate to make the race against him in the state convention, the Anti-saloon league is showing no diminution of its anger against the executive for his alleged work against the passage of the Brannock law. National Superintendent Baker and State Superintendent Wheeler declare that the forces of temperance are lined up against the governor in spite of the present outlook and that if he is nominated a systematic effort will be made to defeat him at the polls.

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality, causing itching scalp, falling hair, and finally baldness. With-out dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

GARFIELD IS NOT WANTED

IN THE STATE OF KANSAS TO
PROBE THE STANDARD OIL
TRUST.

Because Charged With Whitewashing
the Beef Trust—But Roosevelt
Stands By Him.

Washington, March 25.—President Roosevelt has officially placed the stamp of his approval upon Commissioner of Corporations James Rudolph Garfield, against whom the state of Kansas has risen in revolt because of the purpose of the president to send Mr. Garfield into Kansas to investigate the Standard Oil Company. Kansas has lost confidence in Garfield because his report upon the beef trust was literally an echo of the arguments which the packers have employed for several years past to defend themselves against indignation. The oil men of that state can not bring themselves to believe that an official who sacrificed so splendid an opportunity as Garfield had when congress ordered him to investigate the beef trust is the right man to investigate the Standard Oil Company.

The President thinks otherwise. An authoritative statement from the white house says that no protest against Garfield will be heeded because the President has confidence in his ability, integrity and honesty and would trust him as implicitly as any other man of his acquaintance. It is also denied that the dispatch purporting to have been sent to the President was received at the white house.

The dispatch in question states that the character of the report made by Garfield in matters pertaining to the beef trust caused the people of Kansas to lose confidence in the ability or desire of the said Garfield to conduct the said investigation so to develop the facts in the case, especially as he has announced that his hearings in connection with the proposed investigation of Standard Oil will be secret.

Then the dispatch adds: "Secret hearings are what the Standard Oil Company wants, for then its perjury can go unchallenged and a resort will be made along the same lines as that of the beef trust. We respectfully request that you (the President) direct said investigation and that you instruct Mr. Garfield that all hearings must be open to all, each witness heard to be cross-examined by representatives of the people. Let him know that trifling in this matter will not be countenanced. The people are aroused and are in earnest, more so than anyone away from Kansas can realize. We cry to you for help."

The President's petitioners probably are unaware that during most of the period Mr. Garfield's bureau was engaged upon the beef trust investigation Mr. Garfield was personally occupied in an effort to aid the Maine granite trust to have the product of its quarries designated as the material to be used in the exterior construction of the Cleveland public building.

For upward of three months Mr. Garfield labored day and night in behalf of that project to the exclusion of public business. He spent his days at the capitol, seeking to interest senators and representatives in the granite propaganda and his nights calling upon influential members of both houses of congress for the same purpose at their homes.

A curious and apparently inexplicable aspect of Garfield's promotion of the granite business was the fact that he was at the same time engaged in injuring a competing industry which happened to belong to his own section of the state of Ohio. Persons familiar with this feature of Mr. Garfield's activities during the past winter are charitable enough to say that, inasmuch as the question of granite or no granite for the Cleveland building has been settled, he will have an abundance of time to devote to his official duties, and therefore may reasonably be expected to detect violations of law committed by the Standard Oil trust instead of accepting the arguments of the directors of that enterprise. The consensus of opinion in Washington is that Mr. Garfield is filling a position which is altogether too big for his peculiar talents.

ZANESVILLE

Is Trying to Find Out What's
Matter With Town

WHILE NEWARK GOES AHEAD

People in the Clay City are Writing
Essays on "Why Hasn't the
City Grown?"

Zanesville, March 25.—Zanesville has at last awakened to the fact that the town is not growing. Incidentally the people here know that Newark is making rapid strides and is increasing her population at a rapid rate. While "For Rent" signs are thick here, the real estate people at Newark can't provide houses to accommodate the newcomers who are flocking to Newark to work in the factories, several of which are increasing their force of workmen.

"Why has Zanesville not grown?" is now a subject of general discussion here. The Zanesville Signal is offering a prize for the best 500 word article on this subject to be submitted before next Wednesday evening. Here is one short article that reached The Signal Friday in response to the invitation:

"Why Has Zanesville Not Grown?"
"Because it is not natural that it should. Zanesville is having the same experience that practically every other city has had. It has passed the age of rapid growth. The history of American cities shows that they grow like sin for a few years, then settle down to a slow gait, and from that time forward their growth is so gradual as to be hardly observable. Just why this is true goes deeper into the intricacies of human nature than I am able to penetrate but it is true nevertheless. I suppose that the earlier generations are more energetic than their successors. The men who have the energy to found a town and build it up into the semblance of a city do not leave children who are endowed with the capabilities of carrying the work forward. And then, too, we all know that it is natural to be satisfied with what has been done especially when it requires a big effort to add something to it. All human societies are permeated with human nature and I take it that Zanesville is just in the position of a man who feels that he has accomplished a good work and feels inclined to let 'pretty good' alone."

Why hasn't Zanesville grown? Probably an answer can be given by telling why Newark has grown.

A few years ago Newark was a slow-going town, like Zanesville—only much smaller. Some of the live people at Newark got their heads together and decided to awaken the town if possible. They said the stimulant needed was more factories.

The Board of Trade got busy and for \$8,000 induced the Jewett Car Works to locate in Newark. Today the car company employs from 400 to 500 men. A little later the Board of Trade induced E. T. Rugg to bring his halter factory to Newark. The people contributed to the Board of Trade funds, seeing that the money was well spent. Later by a lot sale the Everett foundry was enlarged; then afterwards by another lot sale the Wehrle foundry was expanded until it is today the biggest stove foundry in the world.

The trolley companies were given encouragement and today the three lines there are employing 235 people and are taking shoppers from every direction to Newark.

The discovery of natural gas north and west of Newark is also having a good effect. It is estimated that Licking county people are receiving no less than one-fourth of a million dollars each year for gas leases.

Newark has good railway facilities and that helps wonderfully.

Newark has public spirit and treats visitors so as to make a favorable impression; that helps too.

If Zanesville will get out of the old rut, get a few factories that will grow and stick, will learn that her neighbors are awake and hustling and will then do something herself she too may begin to grow. But if Zanesville continues her present program there seems to be little hope for her. Some are advising people to get on board the trolley cars and ride over to Newark. A good look at a real live town may help.

DOGS POISONED

Wholesale Slaughter of North End Canines—The Lives of Children Are Endangered.

There was a wholesale slaughter of dogs Thursday night in the North End by the poison route, and several valuable dogs fell victims to the cowardly act. Whatever the motive was in throwing this poison around promiscuously is not known unless it was, pure maliciousness. The authorities should investigate these acts for it not only destroys dogs for which it is not intended, but is a menace to children as well.

SHORTAGE \$225.79 SAYS THE REPORT

BEENEY'S FATHER WILL SETTLE CASE BY REIMBURSING THE TREASURY.

Report Submitted to Trustees at Vanatta Friday Evening—Beeneey Reported to be at Home.

Vanatta, March 23.—An official statement of the shortage of ex-Township Clerk H. E. Beeneey shows the amount to be \$225.79. At a meeting of the trustees of Newton township held at Vanatta Friday evening Justice C. E. Hoover, who has been examining the books made his report. Township trustees W. S. Frost, J. Hanks and Charles Wilson were present as was Jacob Weiss, member of the board of education, and Mr. Beeneey's bondsmen, Calvin Nethers and A. Weaver. Mr. Beeneey, father of the missing man, was also present. After the report was made Mr. Beeneey volunteered to reimburse the treasury and this will undoubtedly be done.

No warrant has been issued for the arrest of the young man and it is probable that no arrest will be made though this can not be positively stated at this time. As given in these dispatches earlier in the week, Beeneey was seen in Columbus at the home of his uncle last week but a rumor is current today that he is now at home though this report is not as yet confirmed.

Father Pays in Full.

The Advocate was given the following signed statement today:

"I made my report to the township board Friday evening, and the whole shortage of H. E. Beeneey, as clerk, was \$225.79, which his father paid in full to me this morning, and thus ending the case to my satisfaction. Mr. and Mrs. Beeneey have my and the people's sympathy."

AMUSEMENTS

DENVER EXPRESS TONIGHT.

"The Denver Express" is said to be one of the few sensational comedy dramas that pleases the ladies and children as well as the gallery gods, because, though it is boisterous in merriment, yet it is refined in sensation, pure in tone and spontaneous in action. There is plenty of the comedy element in the piece and the plot contains a beautiful love story. Many realistic mechanical effects are used at the Auditorium tonight.

LORD CHUMLEY.

Cecil de Mille, who will star in "Lord Chumley" at the Auditorium on March 31, made his first appearance in the all star cast of "Hearts are Trumps," which was staged under the personal direction of the late Joseph Humphries, the general stage director or all the Frohman productions. On her last trip to Europe it was Mrs. de Mille's good fortune to have Mr. Humphries for a fellow passenger. One can easily imagine how gratified she was when he one day remarked to her: "I predict great things for your boy Cecil. It's in him, and he's sure to rise quickly." Today we see how well his prediction was fulfilled, for to be leading man to Virginia Harned at 23 years of age proved the veteran manager's estimate correct.

MR. BALL'S SONG RECITALS.
The announcement in this paper several days ago that Mr. Walter Bentley Ball, baritone, is to give three Lenten recitals at Taylor Hall on March 31, April 7 and April 14, was received with pleasure by Mr. Ball's many friends in Newark. The first will be the songs of Robert Burns, the second songs of Alfred Tennyson and the third recital the songs of Thomas Moore.

NEWARK COMPANY AWAITS RESULT

EXPERIMENTS WITH SAND-LIME BRICK TO BE MADE IN THE EAST.

John P. Lamb Who Came Home Sick, Showed Improvement Saturday. No Operation as Yet.

Messrs. James W. Rutledge and J. P. Lamb, representing the Sand-Lime company, recently projected by Messrs. D. H. Pigg and J. M. Ickes, of this city, who have been in the East during the past few days inspecting a number of sand lime industries, for the purpose of thoroughly informing themselves regarding the industry, have returned home. Mr. Rutledge informed an Advocate reporter that they visited the sand-lime brick plants at Wilmington, Del., Syracuse, N. Y., Watertown, N. Y., and other places. At Wilmington, Del., they called on Mr. Duerr, the secretary of the sand-lime brick plant, at that place, and were shown through the plant. The plant is turning out bricks at the rate of 40,000 per day. They also visited the plant at Scranton, Pa., where they are turning out over 20,000 bricks per day, and the demand is so large that the company will soon erect another factory in order to supply their orders. They found that the manufactures of sand-lime brick in the East, while turning out large quantities of bricks, are engaged in experimenting with a view of bettering the product, and the company here will wait the result of these experiments before taking any definite action.

In Mr. Rutledge's judgment the manufacture of sand-lime brick is destined to become one of the great industries of the country. Messrs. Lamb and Rutledge brought home with them some beautiful samples of brick turned out by the plants in the East, which can be seen at the Recorder's office. They are three times the strength required by the government.

While at Watertown, N. Y., Mr. Lamb, who had been suffering with a swelling in the thyroid gland of his neck, became quite sick, and consulted a physician there, who advised him that he was in need of treatment. Mr. Lamb and Mr. Rutledge then started for home, arriving here on Thursday. Mr. Lamb suffering greatly during the trip. On his return Dr. Mitchell was called to his home who found Mr. Lamb in a very bad condition. Dr. Mitchell called Dr. Palmer in consultation, and it was decided that an operation would be necessary. Friday afternoon Mr. Lamb showed slight improvement when it was decided to postpone the operation and not to make it until absolutely necessary, as it was very dangerous. Saturday morning Mr. Lamb had improved so much that it is now thought an operation will be unnecessary, and his many friends sincerely hope for his rapid recovery.

The Hand That Wards Off Coughs, Colds, Grip And Restores Nervous, Dyspeptic Catarrh Wrecks.

LIKE A DEMON grip has crossed our country, leaving behind scores of physical wrecks.

Victims of catarrh of the head, catarrh of the throat, catarrh of the lungs, catarrh of the stomach, catarrh of the kidneys, catarrh of the pelvic organs, are to be counted by hundreds of thousands.

Grip is epidemic catarrh, and sows the seed of chronic catarrh within the system.

This is so true that few grip sufferers are able to make a complete recovery until they have used Peruna.

Never in the history of medicine has a remedy received such unequalled and universal encomiums as Peruna.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Cured of Obstinate La Grippe.

Henry Distin, the inventor and maker of hand instruments for the Henry Distin Mfg. Co., at Williamsport, Pa., is probably the most active old man in Philadelphia to-day. He writes from 1411 S. 9th street, Philadelphia, Pa.:

"I write to inform you that I had a bad attack of la grippe last December which lasted more than three months, and which left me with catarrh, and several of my friends advised me to try your wonderful medicine, Peruna.

"I began with a bottle the first week in March and it certainly did me a great deal of good.

"I was so well satisfied that I purchased another bottle, and followed your directions which you furnish with every bottle, and I am glad to say that it has cured me. I shall certainly recommend the Peruna to all my friends."—Henry Distin.

Congressman Powers of Vermont Uses Pe-Ru-Na in His Family.

Hon. H. Henry Powers, writes from Morrisville, Vt.:

"Peruna I have used in my family with success. I can recommend it as an excellent family remedy, and very good for coughs, colds and catarrhal affections."—H. Henry Powers.

Pe-Ru-na For Catarrhal Nervousness and Stomach Troubles.

Hon. W. J. Furman, ex-member of Congress from Florida, writes from 1422 Q street, N. W., Washington, D. C.:

"From representations to me, and from my own experience, I feel justified in recommending your Peruna to any and all persons suffering with catarrhal nervousness, or stomach troubles."—W. J. Furman.

New York Hats, An Exquisite Fashion Show.

This Millinery Opening is quite the best we have ever had. Development—That is the idea. We couldn't continue to be milliners to her exacting Highness "Newark Women" without development—for her tastes are exacting and she studies styles on her own account. Fewer and fewer people buy much apparel out of our city and we very frequently hear this remark. I can see more and buy better at Hansberger's than Columbus. The reason is plain enough. We buy from first hands and we have our special agent right in New York to catch the new things as they come out every day in the season and send them to us. He knows the new things better than we. This store serves more millinery customers, sells more hats and receives a larger amount of money from its millinery business than does any other store between Pittsburg and Chicago. And the business didn't come to us by luck. Good service with commanding styles won it. Opening continues all next week. Welcome

John's Medicine.

"It is with a heart full of gratitude that I tell what Father John's Medicine has done for me. I had a terrible cough and was so weak that the family physician gave me up, giving me but three days to live. It was then that I began to take Father John's Medicine. Any person who saw me then would hardly know me now, I am so well, and the credit belongs to Father John's Medicine. My little brother drinks the medicine like water and thrives on it." MORE RUMORS AFLOAT ABOUT
PROPOSED CHANGE IN THE
LOCAL OFFICE.

Party Leaves for Chicago Division.
Compound Engines—Some Inter-
esting Paragraphs.

The private car bearing General Manager Fitzgerald, General Superintendent Loree, Superintendent of Motive Power G. A. Schmolli, and Division Superintendent F. C. Batchelder, made up a part of B. & O. passenger train No. 3, Saturday afternoon, leaving at 1.40 for Chicago Junction.

No confirmation of the rumors afloat since Wednesday, to the effect that Supt. Batchelder would be appointed superintendent of the Chicago division, was given out today, but new rumors founded on the departure of the entire party to the Chicago division, have it that the first rumor was materially correct. Chief Clerk Daly stated that the superintendent would alone be authorized to confirm or deny the rumors.

COMPOUND ENGINES

On B. & O. Will Soon be Things of the
Past—Each Month Several Are
Sent to Mt. Clare.

Within a few short months, the use of the big compound engines on the B. & O. will be only a matter of history. Each month four or five of these locomotives are sent to Mt. Clare where they are rebuilt and made into what is known as a simple engine.

The Newark division of the B. & O. formerly had 39 of these engines for heavy hauling and now only 12 or 14 remain. There are engines here bearing the same numbers but they could hardly be called the same piece of machinery, so great is the change in the working parts. Nearly every engine which is simplified gets a new fire box at the same time for both jobs are heavy and require the heaviest hoisting machinery to assist in the work.

In addition to this the entire front of the engine, cylinders, trucks, etc., have been reconstructed until but little of the old locomotive remains.

The cost of this piece of work is great, the expenditure in each job exceeding \$3,000. And why is this done? The motive power has learned by costly experience that the compound engine is not so valuable on a division where the greater part of the right of way is as level as a floor. The Ohio divisions of the B. & O. with the exception of the eastern end, is entirely without heavy grades.

The compounds were not built for speed, but for steady pulling on mountain divisions or very heavy grades. It was learned that a compound sent out with a train of freight cars was required to make fast time to keep out of the way of the fast passenger trains. This proved to be disastrous to the machinery of the big engines and frequent repairs were required to keep the engine in condition to be sent out.

Out of the list of compounds now in use, four are out of service each month. One at Mt. Clare waiting for a place in the shops; one at this end being prepared for the trip; one going and one coming.

At the rate these engines have been changed during the past few months, it will be but a short time before there will be no compound engines on the system. Only fourteen now remain to undergo the change and this will be accomplished as soon as possible.

An attempt was made once to simplify these engines in the Newark shops, but it entailed such a great expenditure for labor that the idea of making the change here was dropped. Only B. & O. shops tried the experiment until it was learned that Mt. Clare could handle all the engines and do it without any trouble so an order came from the Baltimore office

sending all this work to that point. All the latest electrical hoisting machinery is used at Mt. Clare, thus making it possible to do heavy work quickly.

Employee Injured.
C. W. Fountain, a boiler washer at the round house, had his left hand badly scalded by steam while washing boilers Friday afternoon. He will be off duty for several days with the injury.

Turn Table Repaired.
A force of men are at work today on the turn table at the round house putting in a new center. The table will be out of service all day as a result.

High Officials Here.
General Manager Fitzgerald and General Superintendent Loree, together with G. A. Schmolli, superintendent of motive power at Wheeling, arrived in the city this morning on train No. 7 and made an inspection of the company's property here.

Railway Personals.
Brakemen Edward Ovenbaker, J. G. McMullen and G. M. Karroffe have reported for duty.

Brakeman M. Jewell is reported sick at his home, 132 West Main street. Engine 1922 was received at the shops today for heavy repairs. This engine was in the wreck at Frederick Thursday afternoon and is badly damaged.

HUNTED FOR LEAK WITH A MATCH

SIDE OF DWELLING ON SOUTH SIXTH STREET BLOWN OUT SATURDAY.

Nobody Was Hurt, but Fire Department was Called—A Wordy Encounter Followed.

A gas explosion which badly damaged the walls of the house of H. G. McGrath, 45 South Sixth street, occurred Saturday morning at 10:15 o'clock, when a man named Richards who occupies the upstairs of the McGrath home hunted for a natural gas leak with a lighted match. The explosion which followed blew out one side of the room and destroyed clothing and furs belonging to Mrs. McGrath.

After the excitement of the explosion had subsided somewhat a wordy encounter took place between McGrath and Richards. It seems that it was agreed that Richards would use gas for cooking in his upstairs apartment, registering the same on McGrath's meter. At the end of the month each was to pay half of the gas bill. McGrath claims that Richards connected a grate with the meter and used gas at the expense of his landlord.

It was while attempting to disconnect this grate from the line that the leak occurred.

Only the presence of neighbors prevented McGrath from giving vent to his feelings in a pugilistic encounter.

HERE'S WHAT'S WANTED.

A Citizen of Newark Supplies the Information.

Over half the complaints of mankind originate with the kidneys.

A slight touch of backache at first. Twinges and shooting pains in the loins follow. They must be checked, they lead to graver complications.

The sufferer seeks relief. Plasters are tried, and liniments for the back.

So-called kidney cures which do not cure.

The long looked for result seems unattainable.

If you suffer, do you want relief?

Follow the plan adopted by this Newark citizen:

Westley Rowland, express driver, living on Washington St., near Mill St., East Newark, O., says "Many a time my back pained me so and was so weak that I could not load my wagon. If I stooped to pick up anything it was all I could do to straighten up. My back pained me so at nights that I could not sleep. I would walk up again with terrible pain through the back and shoulders as if I were in a cramp. I tried liniments and various remedies but found nothing that helped me until I got Doan's Kidney Pills at Crayton's drug store. Three boxes were all that were required to cure me and the cure has been permanent. That was two years ago and I have had no trouble of the kind since."

MORTGAGES.

A lot of you readers have mortgages on your homes. Seems like it's about all you can do to pay the interest on it. If you, a big, strong man, can't raise that mortgage, will you tell us how your widow is going to do it? Raising your children will keep her fully entertained, and if you don't provide the means of raising the mortgage, the sheriff will raise the roof from the heads of your dependent ones. This isn't sentiment—it's a brutal fact. A policy in the Equitable Life of New York will raise both the mortgage and the children, and it costs very little, too. You don't have to die to win; if you live to an old age, the cash value of the policy, which will be a large sum, may be drawn by you and used for your own support.

WATER WORKS SUIT STILL ON TRIAL

IT IS PROBABLE THE HEARING WILL NOT BE FINISHED BEFORE WEDNESDAY.

Small Attendance in Common Pleas Court Saturday—Outline of the Testimony Given.

The trial of the case of Charles Vadakin etc., vs. The City of Newark, et al, was resumed to the court Saturday morning. It is not likely that the case will be finished today, but will go over until Monday morning next. The attendance at the trial of the case Saturday was not large.

Auditor Maurath.

City Auditor F. T. Maurath was the first witness in the stand Saturday, and was asked to read the ordinance passed April 4, 1904, relating to the sale of \$58,157 worth of bonds issued for the purpose of paying a portion of the city's indebtedness. These bonds were sold June 16, 1904.

John H. Moore.

John H. Moore was asked if he had any conversation regarding this case, with any one. He answered, "Yes, with Judge Jones." Mr. Stasel asked Mr. Moore what passed between them and he said Mr. Jones asked him if he would sign a petition asking for an injunction which Mr. Moore refused to do. Mr. Moore was also questioned by John David Jones.

S. E. Rhoads.

Mr. S. E. Rhoads was asked by Mr. Stasel if he had had a conversation with Judge Jones over the phone. He said he hardly remembered what was said, but knew he was asked to sign the petition before mentioned, but replied he didn't care to do so. When Mr. Rhoads was asked if the cost to him was mentioned, he replied that he was told it would not cost him anything to sign the same.

Charles Vadakin.

Chas. Vadakin asked by Edward Kibler, how long he had lived here, replied, "Fifteen years." When asked if he had any bonds of the Water Works company or had any connection with the company, he answered, "No." Mr. Vadakin on examination by Mr. Kibler admitted that he had a conversation with Mr. Wm. Allen Veach, superintendent of the Water Works company, several days before the suit was brought, and admitted that Mr. Veach of the company, where the papers were drawn up. Mr. Vadakin said he swore to a notice of the injunction, while both were still in the office. Regarding the lawyer's fees, Mr. Vadakin said he expected to pay the costs of the case if he did not win. He said:

"I did not have any understanding or agreement with Judge Jones regarding fees in the case. Mr. Veach did not suggest my going to Flory's office."

Wm. Allen Veach.

Mr. Veach was examined by A. A. Stasel regarding the ownership of the water company and the water works bonds. When asked if several Newark citizens owned or held bonds of the company he replied he did not know, but believed they did not. He was asked, "Did you go to Flory's law office with Mr. Vadakin regarding the water works matter?" "Yes."

The witness was asked if he knew whether or not bonds are owned by F. G. Warden, J. H. Newton and W. E. Miller. He said he believed they did not.

Mr. Veach admitted he was looking for some one to bring an injunction suit against the city as he (Veach) desired to bring a proposition before the city council to purchase the plant.

In conversation with Mr. Vadakin whom he met near the Licking County Bank, the matter came up and Mr. Veach said that Mr. Vadakin consented to bring the suit if he thought it could be done. The two then went to Flory's office when Vadakin signed the notice. "Yes, I believe Mr. Vadakin signed the notice while I was in the office," testified Mr. Veach.

"Did you employ Mr. Flory to write the notice?" "Possibly I did."

Mr. Veach said in examination that he had had Mr. Vadakin in mind for several days previous to this time and considered him a good man to bring the suit.

"Didn't you have an ordinance to repeal the bond issue prepared and presented to the city council by Mr. Wm. E. Miller?"

"I think I did. I wanted to have the bond sale stopped until I could present a proposition to the city council to buy the present water works."

Mr. Veach on cross examination by Mr. Jones said that the Water Works company had no intention of trying to prevent the city from building its own water works, but that he wanted the city council to investigate the plant of the old company with a view

to purchasing same if found in good condition.

Ralph Davis.

Assistant City Auditor Ralph Davis was the last witness called during the morning session, and was merely questioned regarding handling the petition on the day the injunction was granted.

SATURDAY AFTERNOON.

Mr. Roderick Jones was the first witness called for the prosecution at Saturday afternoon's session, and on being examined by Judge J. D. Jones, related the details of serving the notice to Mr. Smythe to file the petition for an injunction in the case in question.

Charles Flory was the next witness called and related about the same as Mr. Jones regarding the serving of the notice heretofore referred to.

On examination by Phil B. Smythe Mr. Flory denied that he (Smythe) said that he would have to have time and that he could not answer him then regarding his action with the notice which they (Flory and Jones) had just served on Smythe.

John David Jones and Jesse Flory were then sworn by the court and Mr. Jones took the witness stand, when Mr. Jesse Flory proceeded to examine him.

Judge Jones told the history of the drafting of the petition relating how after receiving a telephone message from Mr. Veach, telling him of the action of the officials in selling the bonds at private sale, immediately went to his typewriter and drafted a petition which he submitted to Mr. Jesse Flory who suggested some changes and additions to the petition. The following day according to the testimony, the petition was taken by Messrs. Jones and Flory to the office of the Probate judge, when the injunction was allowed, the plaintiff in the case being Mr. Vadakin.

Mr. Jones was cross examined by Mr. Kibler who brought out the point that he was not an attorney in the case until after the suit was filed, but tried to get someone else to bring the suit.

Mr. Jesse Flory, the next witness called was examined by John David Jones and cross examined by Mr. Kibler.

Wm. H. Anderson, ex-sheriff, was sworn and placed on the stand, and examined by Mr. Jones regarding the service of the summons on the defendants in the case.

The time of the return of the sheriff's summons raised a point, the discussion of which, during the cross-examination by Mr. Kibler, consumed considerable time.

Chas. L.H. Long, who at the time suit was brought, was a reporter for the American Tribune, was called and after being sworn by the court, was examined by Judge Jones regarding securing news of the filing of the amended petition in this case.

Judge Walter A. Irvine was then sworn and examined as to the time of day the papers in the case were filed in this office. He said that he thought it was about the noon hour.

The first witness called by the defense was P. B. Smythe. He testified that on the 15th of December he came up stairs at the City Hall as the clock struck 12; that he met Joseph Moser; did not say anything to him about the fact that he, Smythe, had an injunction, to prevent the sale; stood there and talked to him awhile; that while standing there Sheriff Anderson served Moser with the notice of injunction, after which the Sheriff served F. T. Maurath and Rees R. Jones with same. Neither Mr. Moser nor president pro tem Miller were there. After they had been served then went to the council chamber, Maurath carrying the bids already received. There were about 30 bondholders present. When they got to the council chamber Maurath went to the clerk's desk and laid down the bids back, and they were returned to with notice of injunction, and that it was up to the solicitor to tell them what to do. Smythe stepped forward and said that they could not sell the bonds that day; that the sale was off; that the bidders had demanded their bids back, and they were returned to them. Smythe then suggested that they had better pass a resolution rejecting all bids, which was done. On Friday the 16th of December, Smythe received a telephone message from Columbus desiring to know if they would sell the bonds at private sale, would sell the bonds at private sale, and see what he said. Afterward, he telephoned back to come over on Saturday. On Saturday, Mr. Work, representing Seasongood & Mayer, and Mr. Phillips, representing Dennison, Pryor & Co., came over to Newark and met Maurath, Smythe, Crilly, and Jones and Moser and J. P. Lamb at the clerk's office that evening. They discussed whether they could legally sell the bonds at private sale, and Smythe advised them that they could. The bond buyers bid \$14,150 premium. After some consultation their bid was accepted. Smythe drew up the contract and agreement, which the city officials signed, but the bond buyers did not sign. The bond buyers took away the only copy of their bid. It was further agreed that Smythe and Maurath were to deliver the bonds in Cleveland Monday morning. On Sunday night Smythe and Maurath took the bonds and started to Cleveland and delivered them to Dennison, Pryor & Co. at Cleveland on Monday morning. At that time Smythe showed the representatives of Dennison, Pryor & Co. a certified copy of the unauthorized journal entry agreed to by himself and Bolton, which entry

Judge Coyner afterwards ordered stricken from the files as a fraud on the court.

On cross examination Mr. Smythe admitted that he knew when he delivered the bonds to Dennison, Pryor & Co. that arrangements had already been made to railroad the bonds out of the state and into the hands of bona-fide purchasers.

Frank Maurath.

The next witness was F. T. Maurath. He testified that the injunction in the suit of Smythe against the other city officers was served on him after 12 o'clock, and after he had rejected two bids, because they were too late. His story after the injunction notice was served agrees substantially with Smythe's, excepting that his evidence developed that no record was made of the motion offered in the council meeting on the 19th to approve the sale of the bonds, which motion failed to pass. He testified also that all of his proceedings were on the advice of Smythe that they were legal.

Joseph Moser.

Joseph Moser was called and his evidence regarding the services of the first injunction tallied with what had been given. He testified that he refused to consent to the private sale of the bonds until Smythe had advised him that it was legal. Rees R. Jones' evidence agreed with Moser's, as did the testimony of Ralph Davis.

Mayor Crilly.

A. J. Crilly was out of the city at the time the first injunction was served, and the sale declared off, and he knew nothing of that proceeding. He testified that the first he knew of the sale he got from Smythe on Friday afternoon; that he inquired of Smythe about the effect the injunction would have on it. Smythe told him that the injunction would only prohibit the public sale on the 15th, and that the suit would be dismissed any way by the consent of the parties. Otherwise his evidence agreed with the testimony of the previous witnesses. An attempt was made to substantiate Smythe's account of the serving of the notice on him to begin this by calling Joseph W. Horner and William R. Davis, but these witnesses were unable to remember anything about it.

T. O. Donovan testified that he had been requested to bring the injunction suit but had declined to do so.

Mr. Donovan said that Mr. Veach told him it would cost him (Donovan) nothing to begin the suit for injunction.

About 8 o'clock in the morning of the 21st Charles Flory and Roderick Jones went to the office of P. B. Smythe and Mr. Jones gave him a notice to begin suit against the other city officials and bond buyers and join them from the further operations with these bonds. As Mr. Jones gave him the notice he told him that he had two minutes to consider it and walked out of the office without giving him time to read it.

"WHO GOES THERE"

WILL PROBABLY BE SEEN HERE BEFORE SEASON ENDS.

Miss Evelyn Francis With the Company—The Play is Now a Musical Piece.

The many friends and admirers of Miss Evelyn Francis, daughter of Mrs. Milo Francis of West Locust street, who is now a member of the musical comedy, "Who Goes There" company, playing in the larger cities, will be pleased to see her mentioned next to the star in the production in the last week's issue of the Dramatic News, as follows:

"Who Goes There?" was offered in Jersey City last night at the Academy of Music, as a musical piece for a chorus was added and a number of musical specialties introduced by Walter Perkins, Minnie Allen, Evelyn Francis, Wallace Hopper and the Peerless Quartette. Some marches and dances were effectively brought out, and in its new form the piece went very well. With a roster of 40, the company will move on to Philadelphia, Pittsburgh, Newark and other cities.

As will be noticed by the above article Miss Francis takes a leading part in the piece, which will probably be seen in Newark before the season closes.

Like Finding Money.

Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat, or chest irritation, better act promptly like W. C. Barber, of Sandy Level, Va. He says: "I had a terrible chest trouble, caused by smoke and coal dust on my lungs; but, after finding no relief in other remedies, I was cured by Dr. King's New Discovery for consumption, coughs and colds." Greatest sale of any cough or lung medicine in the world. At Hall's drug store; 50c and \$1.00; guaranteed. Trial bottle free.
